JGFILM-PRM - Premium Greenhouse Covering Film

Jiggly Greenhouse® Premium Clear Plastic Greenhouse Grow Film is specially engineered to hold temperatures at a steady rate, making it the ideal solution for use in places where the weather is unpredictable. The high-quality polyethylene construction paired with its unique 5-layer extrusion method allows us to provide our customers with greenhouse grow film that has the perfect mix of UVA Inhibitors, Infrared Blockers, Anti-Drip Agents and Anti-Dust Barriers - ultimately creating a greenhouse film that reduces the loss of energy in plant foliage, minimizes excessive condensation from dripping, allowing complete control over the saturation and humidity levels. Additionally, our Premium Grow Film will not only outlast the competition, but also provide maximum protection from the sun, rain, wind and snow. Master rolls for custom sizes are in stock and available in lengths ranging from 10' to 200' and widths from 10' to 50'.
